

High Tide Hazard Map 5

Key

- Estimated flood depth
 - Area flooded between 5.0 and 10.0m
 - Area flooded between 3.0 and 5.0m
 - Area flooded between 0.5 and 3.0m
 - Area flooded below 0.5m
- Local authority regional border
- Evacuation location

*You should evacuate in principle regardless of flood depth. (If there is no time to evacuate and it is dangerous to go outside, you should evacuate vertically)
 *Please check the latest situation regarding open evacuation locations.
